

Longburn Adventist College Strategic Plan for 2020 to 2023

Purpose Statement: In Christ we educate, encourage and empower.

Mission: To provide a high quality education for students, with Christ-centred values in a family-like environment. We grow every student to excel to their full potential academically, as a leader, and spiritually.

Our Core Values: Lead with Integrity, Act with Respect and Cultivate Resilience.

Student Leavers: We aim for our student leavers to have integrity, respect and resilience. They are able to apply creativity and logic to solve problems and to conduct themselves in a manner that is both socially skilled and value-centred. With these foundations, our students aim to reach their individual potential at school and beyond, with an eternal hope for the future.

Strategic Direction of Longburn Adventist College as of 2020 - 2023

2020	2021	2022	2023
<i>Deciding on the possibility of establishing a satellite school(s) attached to LAC</i>	<i>Generating authentic and relevant learning opportunities</i>	<i>Exploring a more curious and connected curriculum</i>	<i>Measurement of Success</i> <i>A review of what we value and how we measure what we value.</i>
LAC has the potential to deliver the year 7 – 10 curricula to a range of smaller Adventist primary schools around New Zealand. Initial steps will have begun in 2018 with a view to having distance students in 2020.	Review Year 9 curriculum to create connections across a range of subject areas to provide real contexts for learning.	Continue creating connections across curriculum areas into Year 10 to provide real contexts for learning.	Consider the individual student and what success for an individual actually means. This is with a view to implementing change in assessment and the way in which we measure.
